# Infrastructure

**resourzburg is a prominent name in the world of manufacturing for its high-quality products and outstanding service.**

**KNITTING**

The very latest Circular Knitting Machines of "Pailung" and "German Terrot" are engaged in the production floor of knitted fabrics starting from the basic jersey, pique, auto stripes, pointelle to the trendiest jacquards and textured knits of all kinds.

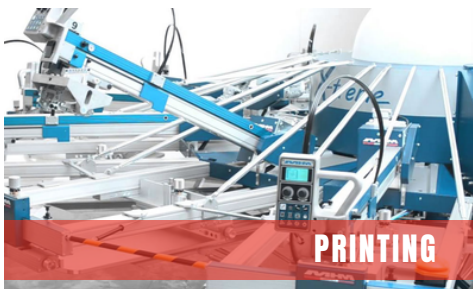

**SOFT FLOW DYEING**

Our Dyeing plant – Colorzfix has the latest Soft flow machines for the fabric dyeing to achieve the colour unanimity and feel. The plant capacity at present is 3 tons with future expansion on the anvil. Eco friendly dyes used in our plants ensures social accountability and fully supported by the modern lab.

**COMPACTING**

The fabric finishing consists of Compaction with a capacity of 4 tonnes. The washed and laundered cloth is sent through "Tube-tex" USA compacting machine to control shrinkage. All processed fabric is pre-shrunk, so that the garments always retain shape.

**PRINTING**

According to the requirements of printing, the cloth is processed for various colours, designs, qualities and other specifications. Fully automated multi-colour rotary printing with a capacity of 8 tons is engaged for all pigment, reactive & discharge prints. Placed printings with a capacity of 3000 pieces are engaged for all pigment, non-pvc, foam, high density & foil prints.

**ELASTIC MANUFACTURING**

resourzburg is specialized in manufacturing Elastics, Satins, 100% Melange, Jacquards, Laces, in different colours and sizes according to the clients specifications. resourzburg is technically fulfilled with latest computers with Pattern Making Software to produce huge combinations of Elastics Tapes with variety of colours and designs according to the customer's specification.

**CUTTING**

Our fully automatic cutting machine with auto CAD helps us to do complicated designs with accurate cutting-edge technology. Band Knife Cutting machine used to cut sharp edges for baby wears and kids wears.

# Infrastructure

resourzburg is a prominent name in the world of manufacturing for its high-quality products and outstanding service.

STITCHING

The total capacity of all our sewing facilities is around 400,000 pieces per month in scale of basic t-shirt and needless to say we have all the high-tech machines – PEGASUS, BROTHER and JUKI on two premises.

CHECKING

Checking is to trim all extra threads and also checks for stains and holes. All garments are 100% checked before packing. In the checking section the pieces are properly checked by efficient people.

IRONING

Automated ironing lines work in tandem to ensure smooth ironing of all the products. This line also serves as a final quality checkpoint before the products are packed.

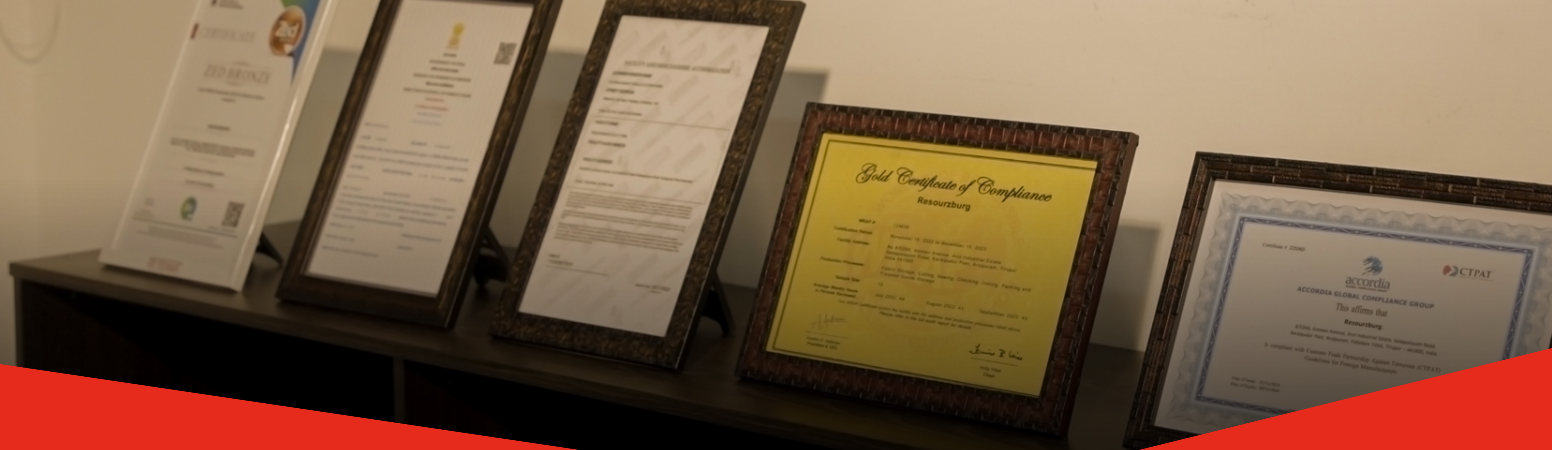

PACKING

We buy our packing materials from leading suppliers and professional providers. We use Oeko Tex certified labels and tags produced from the certified suppliers.

## Quality Standards

### Leadership Through Quality Excellence

is our motto and our lifeline which is the core reason behind the real success and existence of resourzberg.

We ensure that the fabric is of the finest quality and the raw material strictly adheres to the international standards of quality. For all the styles produced, besides our in-house test results found, we ensure that all the basic tests - Color Fastness to Washing, Rubbing, GSM, Shrinkage and Spirality etc., are conducted in the internationally renowned labs SGS/ITS/TUV. These results will be passed on to the end customer irrespective of their requests for the same.

The Quality of the products ensured by our strict quality control department. The department is manned by a slew of experts specialized in different products we offer. The following areas are under their purview :

- Sampling assistance
- Fabric
- Pilot Run
- Online
- Mid
- Prefinal

As we always believe in the third eye concept, the final inspection of all our goods is done by the renowned inspecting agencies - SGS/ITS/TUV considering the viability of the costs as against the order qty offered and as per the client. By doing this way, we are completely assured about the quality products offered to the end customer and it will be a good study for our Quality Department on the areas which we have to emphasize.

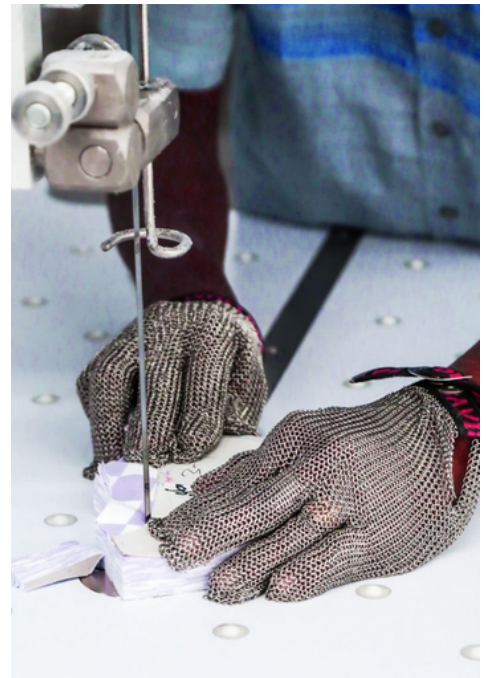

**CSR**

## **Implements many eco-friendly methods in its production processes**

We always seek to provide our customers The Best. That's why to ensure the Factory compliances, Certification and social compliance audits, we have a complete Team visiting all factories under our Umbrella any time, maintaining their social / compliances work, talkative with their Workers, making solutions to factory worker's problems, solving each individual's problems or making keen efforts for the betterment of skillful and the needy.

Our Team Perform Un-announced audits of all sort to keep an eye to factory Compliances / social Responsibility and their safety / health and environ standards as well as documents procedures are in order or not.

### **Social Care - giving back to communities**

We believe in giving back to communities through donations and by volunteering their time with children to make them knowledgeable; create positive learning environments to help them become better citizens for tomorrow. This helps the children and their families achieve a brighter future. The team has association with a couple of NGO's and schools to make this program successful.

resourzburg planet takes equal pains to create intangible gains like generating goodwill and giving back to society, be it through fair trade practices or special care for the environment. The team follows a clear set of practices concerning human rights, the reduction of pollution linked to its various activities and solidarity with those in need.
